## READY FOR BUSINESS. PRINT FAST, PRINT SAFE.

DESIGNED FOR SMALL  
AND MEDIUM BUSINESSES

iR2206N

22PPM. Secure Print. Connectivity.

iR2006N

20PPM. Secure Print. Connectivity.

iR2206

22PPM. Simple. Fast.

Business Can Be Simple

## THE imageRUNNER 2206/2006 SERIES

The imageRUNNER 2206/2006 Series comprises of three models, iR2206N and 2006N (standard models) and iR2206 (entry model). imageRUNNER 2206N, 2006N support secure printing and Printer Command Language (PCL), and aim to improve convenience through the Send Lite function. The entry model is robust with basic functions, while the standard models support Wi-Fi and mobile printing by the use of CANON PRINT Business, Mopria, Google Cloud Print and more. These models boast improved durability and reliability in harsh environments, such as under conditions of high air temperature and humidity.

### TAKE CONTROL OF YOUR JOB OPERATIONS

- Touch Panel provides ease of use and reduces operational steps
- Customizable Home screen
- Improved screen visibility for Touch Panel with the use of backlight
- Up to 13 languages\* supported

\*Supports Malay, Thai, Vietnamese & more

### COPY ID CARDS EFFORTLESSLY

- One-touch shortcut key makes copying of ID cards onto a single printout simple and efficient.
- Shortcut setup for ID card copy is not required

# ENJOY MORE VALUE WITH imageRUNNER 2206N/2006N

## WIRELESS LAN

Built-in with Wi-Fi capability, the imageRUNNER 2206N/2006N can connect wirelessly to a network via an access point. All other connected electronic devices on the same network will be able to print wirelessly, thereby providing greater convenience to users.

## SECURE PRINTING

Protect confidential information from your documents by securing your print job with a configurable PIN.

Documents are held in the printer and released only when a PIN is entered. With the additional layer of verification, this eliminates security risks when printouts are left unattended. It also indirectly reduces paper wastage in the event of a misprint.

## SEND LITE

- **Scan to Email:** Scan your original documents through the platen or automatic document feeder (ADF) and send the scanned document as an attachment to multiple email addresses.
- **Scan to SMB:** Scan your original documents through the platen or automatic document feeder (ADF) and store your files in the network folder via SMB protocol.
- **Au-Send:** Send function is available only to authenticated users, deterring various types of potential data leakages.

## MOBILE PRINTING

- Supports businesses with mobile printing for a variety of file formats including image files, \*PDF, \*Microsoft Office files and web pages.
- **Canon PRINT Business:** Free download from App Store (iOS) and Google Play (Android)
