MULTIFUNCTION PERFORMANCE MEETS OUTSTANDING PRODUCTIVITY

Canon's new imageRUNNER 2500W series has incorporated standard features designed to keep your office more productive. From standard network print capability to in-built duplex functionality, this multifunctional device is perfect for any office setting.

Other key features includes a USB port, allowing you to print with, and the option to scan to your thumbdrive directly, as well as long-life components such as E-drum to reduce maintenance and maintain uptime.

The imageRUNNER 2500W series. It's your choice for greater productivity.

► Simple-to-use control panel

The new and intuitive 5.7" QVGA touch screen lets you perform your daily operations such as Copy, Fax* and Scan jobs. Languages including Thai and Vietnamese are supported to help easy assimilation for all users.

* Installation of an optional Fax Board is required.

► Easy maintenance and affordable with low running cost

Utilizing a separate toner and drum design, each component can be replaced individually, reducing your running costs of maintenance. Furthermore, the new E-drum and toner feature longer durability for higher device uptime.
► Hassle-free Paper Loading

The imageRUNNER 2500W series comes with several standard configurations for paper capacity, so you can be sure there is one for your needs. Additional cassettes may be added to boost total paper reserves to 2,300 sheets, ensuring maximum output efficiency.

excellent PRINT performance
for more professional looking documents

► Standard Printing Capability

The new imageRUNNER 2500W series features a standard print capability of 1200 x 1200 dpi with Canon's innovative Ultra Fast Rendering II LT (UFR II LT) printing technology. It is an ideal blend of speed and simplicity for professional looking documents.

This unique printing solution collaborates with the processing power of the sending computer to balance the data load, and augments its own capabilities to facilitate high speed printing. Optional support for PCL5e/6 and PostScript are also available.
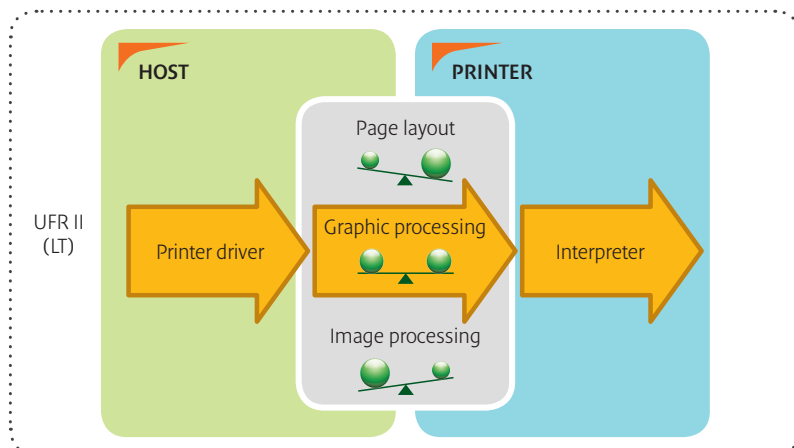

► Seamless Network Printing

The new imageRUNNER 2500W series can be seamlessly connected to your office network as a shared system. You and your colleagues can now benefit from network printing right out of the box. This not only saves office resources but also simplifies the ease of management.

With support for IPv6, these devices are also ready to meet your future network infrastructure requirements.

► Secure Print

The imageRUNNER 2500W series supports driver-based Secure Printing. Secure Printing allows you to hold your print jobs until the appropriate password is entered at the machine. This way, confidential documents are not left lying on the machine's output tray.

secure device MANAGEMENT

for greater control

► Manage access with Department ID

By activating the Department ID mode, usage of imageRUNNER 2500W series can be restricted to only users with valid ID & password. You can create up to 1,000 accounts, with restrictions set on copy, print and scan for each individual user. This promotes greater cost awareness among staff and gives you total cost control.

Example:	Copy	Print	Scan
USER A	100 page limit	50 page limit	100 page limit
USER B	100 page limit	150 page limit	20 page limit

* Usage of control cards require additional hardware installation.

► Remote User Interface and e-Maintenance

The inbuilt Remote UI (Remote User Interface) enables administrators to access machine functions and settings from a web browser on a computer. And with e-Maintenance, administrators can keep track of consumables, device usage and reduce tedious administrative work such as manual meter reading and billing verifications automatically. All these translate to lower downtime and higher productivity.

* e-Maintenance works with most Canon copiers, printers and multifunction devices. For more information on supported models, please contact Canon.

► Device Authentication, usage accountability and secure printing solutions

The imageRUNNER 2500W, together with uniFLOW, allows for advanced control and precise management with features like device authentication, usage accountability and secure printing soltuions.

◆ Print Management
You can now track print activities on the device, and generate reports for easy viewing and analysis.

◆ Cost Accounting
Charge printing cost to individuals or assign the expense to respective workgroups or departments without the manual, messy accounting procedures.

◆ Authentication Printing
keep documents unprinted until the user login and released the document from the device. Users will only be able to view their own print jobs upon authentication. This means the user can securely collect confidential documents and eliminate the problem of forgotten printouts in the machines's output try.

◆ My-Print-Anywhere
Pick up your printed document from any multi-function device connected to the uniFLOW server. Simply identify yourself at the device of your convenience!

_____ STANDARD

► Add colour to your scans with Colour Network ScanGear

Using the Colour Network ScanGear, you can easily edit or modify scanned images at your own workstation and create crisp, clear, and detailed coloured images by utilizing the network in your office. There is no need for standalone scanners or dedicate a PC to a scanner, saving precious time and resources.
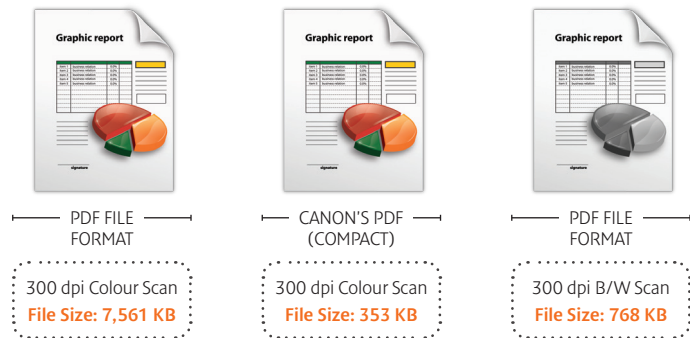

► Scan and store directly to your USB thumbdrive

The new imageRUNNER 2500W series offers a new level of convenience with optional direct scan to USB memory – an indispensable function for users who are in a hurry or want quick paper conversion to electronic files without the use of a PC. You can convert paper documents to JPEG or TIFF formats and save them directly into a USB memory media.

► Create Searchable PDF automatically

By converting scanned images into text automatically, you can create a Searchable PDF. This reduces the time taken to search for keywords, especially within lengthy documents.

_____ OPTIONAL

► Reduce file size to save disk space and bandwidth

Canon's innovative PDF High Compression Mode enables you to compress the file size of colour images to approximately 1/10th the size of the original size while maintaining image quality. This allows for meaningful electronic archival of documents at the optimal balance of quality and file size.

The imageRUNNER 2500W series works as a central device for your document transmission needs.

► Authentication Send for better security

Where added security is required, you can activate the authentication send feature before using the Colour Send feature. Upon user authentication, destination and job settings can be specified. This helps protect confidential documents from unauthorised transmission without locking down the print and copy features of the device. You can even set address restriction that allows sending only to authorised users.

hassle-free FAX functionality
with high speed document transmission

► Super G3 Fax Technology

Send and receive fax messages with the optional Super G3 Fax Technology. The fast speed dramatically reduces your telephone charges and is ideal for sending multiple pages using the one-touch (up to 200 one-touch dials) or group dialing functions.

► More fax input possibilities

Compared to standalone fax machines, faxing on multifunctional devices offer much more without requiring additional storage space. You can input from hardbound documents directly and even up to A3-sized documents.

► 1000-page Storage Capacity

With the capability to store up to 1000 pages in the memory, you no longer have to worry about losing incoming faxes, even when toner and paper supplies are down.
► Fax Forwarding

With Fax Forwarding, you will never miss important faxes. Incoming faxes or I-faxes can be configured to automatically route to your desired location.

► PC Faxing

You can send faxes over the network. With PC Fax, you can eliminate the need to print out hardcopies for faxing, hence reducing paper wastage.

► Reduce paper consumption with Duplex Printing

With standard duplex printing, you can print incoming faxes on both sides of the paper to reduce paper consumption and filing space.

a better ENVIRONMENT
makes better business sense

Canon designs multifunction devices with the environment in mind, aiming to reduce energy consumption when in use and ensuring ease and comfort of operation.

► Energy Conservation

With Canon's RAPID Fusing System™, imageRUNNERs are ready to print instantly, reduce high energy consumption and keep costs at a minimum. imageRUNNERs are certified as international ENERGY STAR® compliant.

► Eco-friendly with Green Technology

Other than saving energy, Canon has also successfully developed a unique roller-charging system, which effectively absorbs and disperses the ozone through a filter, making it an ozone-free operation.

► Compliance with EU directive on RoHS (Restriction on Hazardous Substance)

At Canon, non-hazardous materials and green technology are used. As such, you can be assured that with Canon products, your business and well-being are taken care of.
